

REMOTE ENGINEERING CONSULTING

ENGINEERING SERVICES TODAY,
ASSURANCE TOMORROW

CONNECT WITHIN 24-48 HOURS

- Engineering services when you need them. Not next week, or the week after.
- Immediate challenges require immediate solutions.

COST EFFECTIVE

- A few hours with our expert team is an easy investment to uncover better, more productive ways to run your systems.
- Avoid most costs associated with on-site visits like flights, hotel, etc. Pay only for the advice you need.

EXPERIENCED TEAM

- Leverage our experienced team of engineers and food scientists.
- You can have the confidence that Blentech has your back! Think of our team as an extension of your organization. We're in this together.

ALL YOU NEED IS A CAMERA

- Our team will work with you over real-time video to guide you in the right direction.
- Don't have the equipment or set up needed? Video equipment rentals can be arranged upon request.

Twenty-first century challenges require twenty-first century solutions. With Blentech's remote engineering services, you can have the full confidence that you have a dedicated team of engineers and food scientists available to help you when you need them the most. Eliminating travel lags will you save time and money, but more importantly you will have immediate support for your most urgent needs. While we do believe there is a time and place where site visits are required, we've found most of the time our customers can get the help they need with remote support.

Feeling stuck? Let us help you - remotely. 95% of engineering challenges can be solved immediately within the same day - without the expensive costs of a site visit. With Blentech's remote engineering services, you can expect us there with you when you need us the most -- at the touch of a button.
